Win A Makeover And Have Your Hair

As you like it

Each month As You Like It Hair Gallery transforms one lucky person. This month Veronica Perkins from Gordonvale was given a stylish new look.

Hair

By Marcia Ebdell-Blanch

I wanted to work with Veronica's natural curl when deciding on her new style. However, it needed some taming to soften the curl and jawline. To do this I lifted the weight from the back, neck and shoulders by shattering through the solid curl to fall softly towards the face and jawline. The result is a longer neckline and softer jawline with a feeling of weightlessness.

Make-up tip Be careful not to overpower your look when using darker colours. Focus on one feature and keep the rest of your make-up soft and natural.

Hair tip Add a light shine spray to your handbag contents for instant shine and condition when you are on the move or in the midday sun.

Make-up

By Sara O'Neill

The make-up was chosen to complement Veronica's olive skin tone and to highlight her gorgeous green eyes. I created smokey eyes using shades of bronze and chocolate. I also used chocolate and green hues of liner and to finish, glossy lips.

Colour

By Marcia Ebdell-Blanch

To add shine, warmth and life to the dark flat base, a deep golden chocolate colour was created to keep warmth to her skin tone. Strokes of brilliant copper were taken through to the face line to add a little fun and showcase those amazing green eyes.
